

Clinical Study for Patients with Dry Eye Associated with Sjögren's Disease

- If you are an adult with Dry Eye Disease associated with Sjögren's, you may be eligible to take part in a **clinical research study** being conducted by **Sylentis S.A.U.**
- The purpose is to compare the study eye drop to placebo (eyedrop without medication) in treating the signs and symptoms of Dry Eye associated with Sjögren's.
- You may be eligible to take part in the **SYL1001_V** Study if:
 - You are 18 years or older
 - You have a diagnosis of Sjögren's
 - Other entry criteria apply and your eligibility will be determined by the study staff
- If you decide to take part in the study, your participation could last approximately 3.5 months and consist of 5 to 6 visits to the study center. You will be reimbursed for each completed visit.
- For more information about this **clinical research study** please contact:
