

Dear Sjögren's Patient:

We are pleased to share information about a new clinical research study enrolling in your area for individuals with Sjögren's. Your participation in this study could help future patients worldwide.

This new study, CL2-95011-001, is looking for individuals diagnosed with Sjögren's without an accompanying, major rheumatic disease. Participants can be male or female and between 18 and 75 years of age. Childbearing potential participants must use contraceptive methods. With some restrictions, participants may be able to continue taking medications during the study such as:

- Oral corticosteroids at limited dose
- Chloroquine treatment
- Non-steroidal anti-inflammatory medications
- Methotrexate
- Treatments for dryness of mouth
- Treatments for dryness of eyes (artificial tears, lubricants)
- And others

Study drug and study-related care will be available to eligible participants as well as travel related costs as needed.

For more information and to see if you may be eligible to participate please contact:

Dr. Alan Kivitz
Altoona Center for Clinical Research
175 Meadowbrook Lane
Duncansville, PA 16635

Call Ellen Rosen, Patient Liaison at (814) 693-0300 extension 188 or email:
